IMMEDIATE RELEASE:

October 21, 2011

LOPEZ APPOINTED CHAIR OF ASAE'S AMC SECTION COUNCIL

Ankeny — Molly A. Lopez, CAE, president of Association Management, Ltd. (AML), an internationally accredited Association Management Company (AMC), has been appointed as chair of the national AMC Section Council for the American Society of Association Executives (ASAE) and The Center for 2011-2012. Lopez will serve a one-year term.

Positions on this Council are offered to leaders in association management representing the nation's top association management companies.

"It is an honor to serve with this great group of association management company leaders from across the country," Lopez says. "The goal of the AMC Section Council is to assist ASAE in providing programs, services, and information that help emerging AMC owners and address the unique association management and business challenges faced by an AMC. Our charge this year is to bring together the minds and talents of these individuals to advance this common goal."

ASAE and The Center serve approximately 10,000 associations that represent more than 287 million people and organizations worldwide. ASAE has 13 professional interest sections, providing a community for nearly every sub-specialty within association management. The AMC Section Council represents the 4,000+ principals and staff of association management companies within ASAE and The Center.

The Section Council provides resources for association professionals that include timely association research, a listserv, education, e-newsletters and the *Guide to AMCs* (a tool for volunteer leaders and paid executive staff to find management and outsourcing solutions for their associations).

AML was acquired in August by ISA Management Solutions, Inc., a wholly owned subsidiary of Iowa Soybean Association (ISA). Founded in 1976, AML manages the business of associations and is a full-service, internationally accredited (one of only 70+ accredited firms worldwide) Association Management Company. The firm provides management and outsourcing solutions for eight international, national, regional and state trade associations and professional societies that represent 5,000+ individual members and 500+ company members from 57 countries.
